The following tape widths are recommended:

- Finger, wrist 1" or 2"
- Ankle, foot, elbow 2" or 3"
- Knee, leg 3" or 4"

For best results, use Optimal first aid products, and follow the 1,2,3 treatment

Step 1: CLEAN: Gently Clean the wound using a gauze bandage with mild soap and water. Carefully dry the affected area and apply medication if needed (not included).

Step 2: COVER: Cover the wound with a non-stick or surgical bandage (not included).

Step 3: SECURE: Secure bandage with gentle tape. Overlap tape and press to underlying layer to hold it in place. Avoid wrapping tape too tightly, remove and wrap again. Change your bandage daily or as instructed by medical professional.
